CS 3630: Rich Internet Applications

Fall 2016

Instructor Information

Michael Jasper

Contact Information

Primary communication with me and each other will be through the class slack channel: http://cs3630.slack.com. My email address is md.jasper@gmail.com.

Course Materials

No textbook is required for this course. Reading will be assigned throughout the semester from online sources. Students will be required to have a GitHub and CodePen account (free online services).

Assignments

Homework will be assigned throughout the semester, usually weekly from Wednesday to Wednesday. Occasionally, large homework assignments may span two weeks. Homework will be turned in by submitting a URL through Canvas to a CodePen Pen or a GitHub repository depending on the assignment.

Reading will be assigned throughout the semester, with discussions or quizzes about the reading to gauge understanding of the material.

Exams

This course will not have paper or electronic exams or finals. A final project will be due at the end of the semester which will demonstrate your learning and skills gained through the course. The final project will use each skill taught during the semester, as concepts build on each other.

Grading

Cheating

Cheating will not be tolerated under any circumstances. If a student is caught cheating, the student will receive an automatic failure for the course. If it occurs again, the student will be expelled from the program for a period of one semester (not including summer). A third occurrence will result in dismissal from the program.

The WSU Student Code explains:

1. Cheating, which includes but is not limited to:
   1. Copying from another student’s test
   2. Using materials during a test not authorized by the person giving the test
   3. Collaboration with any person during a test without authorization
   4. Knowingly obtaining, using, buying, selling, transporting, or soliciting in whole or in part the contents of any test without authorization of the appropriate University official
   5. Bribing any other person to obtain any test
   6. Soliciting or receiving unauthorized information about any test
   7. Substituting for another student or permitting any other person to substitute for oneself to take a test

2. Plagiarism, which is the unacknowledged (uncited) use of any other person’s or group’s ideas or work. This includes purchased or borrowed papers

3. Collusion, which is the unauthorized collaboration with another person in preparing work offered for credit

4. Falsification, which is the intentional and unauthorized altering or inventing of any information or citation in an academic exercise, activity, record-keeping process

5. Giving, selling, or receiving unauthorized course or test information

6. Using any unauthorized resource or aid in the preparation or completion of any course work, exercise or activity

7. Infringing on the copyright law of the United States which prohibits the making of reproductions of copyrighted material except under certain specified conditions

Students with Disabilities

Any student requiring accommodations or services due to a disability must contact Services for Students with Disabilities (SSD) in room 181 of the Student Services Center. SSD can also arrange to provide course materials (including this syllabus) in alternative formats if necessary. You can also call 801-626-6413 for more details.
