CS 1030	Foundations of Computer Science
	Spring Semester 2016

Instructor	Kyle Feuz		
	Office: TE 111C		
	Phone: 801-626-7864		
	E-mail: kylefeuz@weber.edu		
	Office Hours: M,W 11:30-12:30 pm, T,TH, 10:30-11:30am		
67	Office Hours @ D2 226: M,W: 4:45 – 5:20 pm		
Classroom	TE 202S		
Days	T, TH		
Time	11:30-1:30 PM		
Texts	Connecting with Computer Science (2 nd Edition); Course Technology, Anderson, Ferro, and Hilton, ISBN 978-1-4390-8035-1		
Objective	A solid foundational introduction to Computer Science course is essential in undergraduate program		
	to ensure that all students are on the same footing for subsequent courses. This course follows the		
	core body of knowledge specified by the ACM which provides students with a broad overview of		
	topics they might encounter within the Computer Science curriculum.		
	The course is taught at an introductory level and includes topics such as: history of computers, computer architecture, operating systems, world-wide web and HTML, programming with Python,		
	database, software engineering, networking, and more. Through a series of lectures, discussions,		
	textbook exercises, quizzes, tests, and labs students will learn first hand about the field of computer		
	science as both a degree and a career.		
Learning	At the end of this course students should be able to:		
Outcomes	Summarize core computer science concepts at a high level		
	• Create a basic HTML page		
	Use SQL to query a simple database		
	Solve problems using a programming language (Python)		
Class	Class will consist of lectures, discussions, assignments, quizzes and exams. Questions and		
	comments are encouraged. It is expected that students will read the material related to each week's		
	coursework. There will be several in-class assignments and projects throughout the semester which		
	will be worth 1 point each in the assignments category.		
Assignments /	There will be weekly assignments for the class. Assignments will consist of short answer, discussion		
Discussions /	topics, and projects. The specifics of each assignment will be posted weekly on Monday. The due		
Projects	date for each assignment will be the following Sunday at 11:59pm (unless otherwise specified.) Late		
	assignments will be accepted for projects with a 10% penalty per day for up to 5 days to provide for unforeseen circumstances. There is an 8 hour grace period during which late assignments will still		
	be given full credit. Late assignments for discussion posts will not be accepted. Assignments count		
	for 45% of the final grade.		
Quizzes	There will be weekly quizzes for the class, worth 10 points each. A quiz will be posted on Saturday		
Quizzes	each week (with exception of the two weeks where we have exams.) You may take the guiz as many		
	times as you want before the due date. The highest quiz score will be accepted. Quizzes are due		
	Wednesday at 11:59 pm. Your lowest two quiz scores will be dropped to provide for unforeseen		
	circumstances. Quizzes count for 15% of the final grade.		
Exams	There will be three exams for the class. Exams count for 40% of the final grade (the Midterm 1)		
	being worth 10% each, and the Final Exam being worth 20%.) The exams will be available		
	administered through the testing center. The midterm exams will open on Monday and will close on		
	Saturday. The final exam will open on Tuesday and close on Thursday. Do not forget to take an		
Accommodations	exam. Also make sure to sign in at the testing center. Any student requiring accommodations or services due to a disability must contact Services for		
for disabilities	Students with Disabilities (SSD) in room 181 of the Student Service Center.		
Grading			
	Quizzes 15%		
	Assignments 45%		
	Quizzes 15%		

	Exams 40%				
	The final grade will be given based on points accumulated through quizzes, assignments and exams.				
	Standard grading will apply:				
	94 – 100 A 74 – 76 C				
	90 – 93 A- 70 – 73 C-				
	87 – 89 B+ 67 – 69 D+				
	84 – 87 B 64 – 67 D				
	80 – 83 B- 60 – 63 D-				
	77 – 79 C+ 0 – 59 E				
AD 4 3 751					
Allocated Time					
D. P	university course. Computer and programming classes typically require time in the upper range.				
Policies	Exams can only be taken on the days given unless arrangements are made to take them ahead of time. If you do not take the final exam and you do not earn a passing grade you will be given a UW.				
Chaoting					
Cheating	Students are expected to maintain academic ethics and integrity in regards to performing their own				
	work. The WSU Student Code states clarifies cheating. 1. Chaoting which includes but is not limited to:				
	 Cheating, which includes but is not limited to: a. Copying from another student's test paper; 				
	b. Using materials during a test not authorized by the person giving the test;				
	c. Collaborating with any other person during a test without authority;				
	d. Knowingly obtaining, using, buying, selling, transporting, or soliciting in whole or				
	in part the contents of any test, without authorization of the appropriate official;				
	e. Bribing any other person to obtain any test;				
	f. Soliciting or receiving unauthorized information about any test;				
	g. Substituting for another student or permitting any other person to substitute for				
	oneself to take a test.				
	2. Plagiarism, which is the unacknowledged (uncited) use of any other person or group's ideas				
	or work. This includes purchased or borrowed papers;				
	3. Collusion, which is the unauthorized collaboration with another person in preparing work				
	offered for credit;				
	4. Falsification, which is the intentional and unauthorized altering or inventing of any				
	information or citation in an academic exercise, activity, or record-keeping process;				
	5. Giving, selling or receiving unauthorized course or test information;				
	6. Using any unauthorized resource or aid in the preparation or completion of any course work,				
	exercise or activity;				
	7. Infringing on the copyright law of the United States which prohibits the making of reproductions of copyrighted material except under certain specified conditions;				
	CS Department policy dictates that any verifiable evidence of student academic cheating, as defined				
	and determined by the instructor, will result in: 1) an automatic failing grade for the class and 2) a				
	report to the Dean of Students that will include the student's name and a description of the student's				
	dishonest conduct.				
	WILLIAM TOTAL TOTA				

Class Schedule and Course Outline

Week of	Topic	Coursework
Jan 11	Ch. 1: The History of Computing	
Week 1		
I.m. 10	Ch. 2: Computing Security and Ethics	Quiz #1
Jan 18 Week 2		Assignment #1
WCCK 2	Ch. 3: Computer Architecture	Quiz #2
Jan 25	Ch. 4: Networks	Assignment #2
Week 3		
D 1 1		Quiz #3
Feb. 1 Week 4	Ch. 5: Internet	HTML Project
WEEK 4		Quiz #4
Feb. 8	Review	Midterm Exam 1
Week 5		
	Ch. 7: Numbering Systems and Data Representations	
Feb. 15	Ch. 7: Numbering Systems and Data Representations	Number Systems Project
Week 6	Ch 10. Eile Structures	On: - 45
Feb. 22	Ch. 10: File Structures Ch. 8: Data Structures	Quiz #5 Assignment #4
Week 7	Cii. 8. Data Structures	Assignment #4
,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,		Quiz #6
Feb. 29	Ch. 9: Operating Systems	Assignment #5
Week 8		
M 7	Coming David	Quiz #7
Mar. 7 Week 9	Spring Break	
Mar. 14	Ch. 6: Database Fundamentals	Database Project
Week 10	en en 2 amente i anaminentario	
		Quiz #8
Mar. 21	Review	Midterm Exam 2
Week 11	Ch. 11. The Hymner Commuter Interfere	
Mar. 28	Ch. 11: The Human-Computer Interface Ch. 11: The Human-Computer Interface	Assignment #6
Week 12	Cii. 11. The Human-Computer interface	Assignment #0
,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	Ch. 12: Problem Solving and Debugging	Quiz #9
Apr. 4	Ch. 13: Software Engineering	Assignment #7
Week 13		
A 11	Ch. 14: Programming I	Quiz #10
Apr. 11 Week 14	Ch. 14: Programming I	Programming Project #1
**************************************	Ch. 15: Programming II	Quiz #11
Apr. 18	Ch. 15: Programming II	Programming Project #2
Week 15		
	Review	Quiz #12
Apr. 25	Final Exam – Comprehensive (Chapters 1-15)	Final Exam
	(Apr 26 - 28)
